

DS300

Fact Sheet

The Election Systems & Software DS300 polling place ballot tabulation scanner represents the latest in election equipment. Upgrading from the DS200 to the DS300 gives South Carolina voters the best available technology and security to ensure a smooth voting process, along with a smaller footprint in the polling place with the slightly smaller DS300 device. From early voting through Election Day, the DS300 scanner will provide South Carolina voters with a better voting experience!

Efficiency

- Up to 33% faster ballot scanning.
- 75% faster startup time.
- 240% faster poll opening.
- 4.5X report printing time.
- Expanded support to USB 3.0 flash drives for faster uploads of election results.

Security

- Enhanced physical security measures to protect against tampering.
- Administrative and election functions require authentication with a security code.
- The system is paired with an encrypted card containing its firmware and will not function if the card has been removed or altered.
- All data generated during elections is digitally signed and encrypted as a bundle at poll close.

DS300

every vote matters.
every vote counts.
